

Each year one in four of us will experience a mental health problem. **You are not alone.**

## Q. What can I do if I am finding it difficult to cope?

If you are over 18 and registered with a GP in the East Surrey Clinical Commissioning Group area (which includes Tandridge, Redhill and Reigate), you can access free help and support directly.

## Q. Who can help me?

There is a range of options available and you don't necessarily have to see your GP. East Surrey CCG has introduced self-referral for psychological therapy – so you can book appointments direct with a therapist.

**If you feel you aren't ready for counselling, or feel that it is not for you, there are other services available.**

**First Steps help people recover their emotional wellbeing, with a focus on self-help and directing people to the right services, visit [www.firststeps-surrey.nhs.uk](http://www.firststeps-surrey.nhs.uk)**

## Q. What treatments are available?

There are four available services which look at each person's individual needs and offer the type of care likely to help the most with a range of conditions, including, for example, depression, panic attacks, OCD and phobias. You can contact one of these organisations directly and ask for a free appointment on the NHS.
